SUMMARY

Frontend developer and Business Information Technology graduate specialising in React, Tailwind CSS, and UI/UX design, with working knowledge of backend technologies including PHP, Node.js, and MySQL. Experienced building responsive web applications and improving MIS systems for government and private sector clients. IBM SkillsBuild certified in Generative AI Essentials with practical knowledge of LLMs, AI prompting techniques, and data classification. Able to deliver clean digital experiences under deadlines, from solo freelance work to coordinated team environments. Actively seeking opportunities to build scalable products and grow within a forward-thinking team.

WORK EXPERIENCE

Project Freelancer

Agura Group · Kigali, Rwanda · Sep 2025 – Present

- Coordinated multiple concurrent client projects from brief to delivery, consistently meeting deadlines.
- Improved internal task-tracking and communication workflows, noticeably reducing client response turnaround.
- Collaborated with designers and developers to align deliverables with client expectations across projects.

Audio Producer

Intare Soundwave Initiative · Kigali, Rwanda · Feb 2026 – Present

- Managed end-to-end production of various audio projects, meeting all creative briefs on schedule.
- Developed strong attention to detail, quality control, and client-communication skills transferable to digital product delivery.

IT Support Intern

Ministry of Justice (MINIJUST) · Kigali, Rwanda · May 2024 – Jun 2024

- Contributed to the ILPD MIS web application upgrade, improved frontend modules using HTML/CSS and supported backend integration.
- Provided technical support to a large number of staff members, resolving system and IT workflow issues promptly.
- Documented troubleshooting procedures to improve IT team efficiency for recurring issues.

PROJECTS

Personal Portfolio Website

React · Tailwind CSS · UI/UX Design

Responsive portfolio platform showcasing professional experience, projects, and skills. Built with a focus on clean design, fast load times, and mobile-first layout. Currently live at <https://my-portfolio-website-liart-ten.vercel.app/>.

ILPD MIS Frontend Module (MINIJUST)

HTML · CSS · JavaScript

Upgraded the frontend interface of a government justice management system, improved usability, module navigation, and aligned the UI with underlying system workflows.
